

MEDAVOLT LLC

ELECTRICAL, HVAC & PLUMBING CONTRACT STAFFING

For U.S. Government Agencies

MISSION STATEMENT

"Service to our country doesn't end with the uniform. As a Service-Disabled Veteran-Owned Small Business, we bring the same discipline, accountability, and mission focus that defined our service into every contract we fulfill."

MEETING THE GOVERNMENT'S NEEDS

Government agencies operate under a distinct set of pressures — time-sensitive missions, exacting professional standards, and a demand for accountability that private-sector clients rarely require to the same degree. As a veteran-owned company, MedaVolt understands these needs firsthand, because we lived under them. We built this company not only with the capability to meet them, but with the genuine desire to keep serving our country in a new form.

WHAT WE DELIVER, BY DESIGN

- ★ Expedited Delivery — we understand government timelines are rarely flexible, and we staff and mobilize accordingly
- ★ Professional Standards — every technician meets the licensing and certification standard the work requires, without exception
- ★ Teamwork and Leadership — our teams operate with clear leadership structure and coordinated execution, not ad hoc labor
- ★ Communication — proactive, consistent updates so the agencies we serve are never left wondering about status
- ★ Accountability and Responsibility — we stand behind the work our teams perform, for the life of every contract
- ★ Mission Understanding — we approach every contract as part of a larger mission, not a transaction

We are swift, easy to work with, and fully committed to serving the government's needs — because for us, this work is a continuation of service, not simply a business.

CAPABILITY STATEMENT

CORE COMPETENCIES

- ★ Electrical contract staffing — licensed journeyman and master electricians for government facility and infrastructure work
- ★ HVAC contract staffing — EPA 608-certified technicians for installation, maintenance, and repair
- ★ Plumbing contract staffing — state-licensed plumbers for facility and infrastructure projects
- ★ Rapid personnel mobilization — teams identified and ready before contract award, not after
- ★ CONUS and OCONUS deployment support

CERTIFICATIONS & STANDING

- ★ Service-Disabled Veteran-Owned Small Business (SDVOSB) — direct access to VA Veterans First and federal SDVOSB set-asides
- ★ All personnel hold the applicable state licensing and safety certifications required for their trade
- ★ Exclusively focused on U.S. government contracting — federal, state, and local
